

The Swedish Agency for Marine and Water Management's Code of Statutes

The Swedish Agency
for Marine and
Water Management

Regulations of the Swedish Agency for Marine and Water Management amending the Regulations of the Swedish National Board of Fisheries (FIFS 2004:25) on access to resources and fisheries control

HVMFS 2025:x

Printed
Enter date

adopted on Enter date.

By virtue of Chapter 5 Section 7 of the Ordinance (1994:1716) on fisheries, aquaculture and the fishing industry, the Swedish Agency for Marine and Water Management hereby lays down, with respect to Regulations of the Swedish National Board of Fisheries (FIFS 2004:25) on access to resources and fisheries control, that a new section, namely Chapter 12 Section 6a, shall be introduced.¹

Chapter 12 Weighing of catches

Section 6a A fully or semi-automatic sampling device shall be used for the sampling unsorted catches exceeding 10 tonnes in accordance with Section 6.

A sampling tube, or gutter, shall be fitted to the pipe, or conveyor belt, before grading. When the tube, or gutter, is opened, a predetermined catch amount shall automatically be removed from the stream and then collected in a vessel.

These Regulations shall enter into force on Enter date.

On behalf of the Swedish Agency for Marine and Water Management
