5. Decree of the Ministry of Agriculture and Forestry on Fertilising Products

6. Fertilising products, inorganic fertilisers, organic fertilisers, organo-mineral fertilisers, soil improvers, growing media, biostimulants

7.

Directive (EEC) No 86/278 on the protection of the environment, and in particular of the soil, when sewage sludge is used in agriculture: Art. 12

Supplements the Fertilisers Act 711/2022

8. Under the Fertilisers Act (711/2022), the Decree lays down quality requirements for product categories of fertilising products (fertilisers, liming materials, soil improvers, growing media, biostimulants and fertilising product blends), component material categories and their quality and treatment requirements, the content of the component material list, the use of fertilising products including treated sewage sludges and manure, and product category-specific labelling requirements, the manner of notification and permitted deviations in nutrients and other characteristics of fertilising products.

9. Fertilising products should meet certain quality requirements in order to ensure that their use in accordance with the instructions is safe for plant production and the environment.
