4. 2025/0712/SE - N00E - ENERGY CARRIER

5. The Swedish Radiation Safety Authority's Regulations on Nuclear Safeguards

6. Nuclear equipment as specified in Annex I to the Additional Protocol (INFCIRC/193/Add.8), including zirconium tubes, reactor control rods, heavy water, and hot cells (hot cells), nuclear equipment as specified in Annex II to the Additional Protocol, including nuclear reactors

7.

8. The Draft Regulations applies to all operators engaged in nuclear activities or related activities under the

Nuclear Activities Act (1984:3). The Draft includes requirements concerning any organisation, reporting and accounting that apply to these activities. In addition, the proposal clarifies the right of international inspectors to access the activities.

9. The Regulations supplement Commission Regulation (Euratom) 2025/974, implement the Additional Protocol (INFCIRC/193/Add.3), and introduce certain provisions based on national legislation in order to comply with the international agreements that Sweden has undertaken in the field of nuclear safeguards (including the Non-Proliferation Treaty).

If adopted, the Draft will replace the current Regulations on nuclear safeguards (SSMFS 2008:3). The Swedish Radiation Safety Authority has identified a need to update the current version of the Regulations so that they better fulfil the aforementioned purpose.
