5. Ordinance reorganising electronic legal communication at the German Patent and Trade Mark Office

6. The expansion and modernisation of digital communication channels with the German Patent and Trade Mark Office (Deutschen Patent- und Markenamt – DPMA) through an Ordinance reorganising electronic legal communication at the German Patent and Trade Mark Office (Verordnung über den elektronischen Rechtsverkehr beim Deutschen- und Markenamt [ERVDPMV])

7.

8. The Ordinance reorganising electronic legal communication at the German Patent and Trade Mark Office (ERVDPMAV) replaces the existing ERVDPMAV and creates the necessary legal basis for expanding and modernising the DPMA's digital communication channels.

9. The channels for applications and communication with and from the DPMA need to be further developed in order to take new technological developments into account. To this end, the Draft Ordinance specifically creates the legal basis for establishing a web-based user portal at the DPMA. In the future, such a portal will enable industrial property rights to be applied for and managed in a user-friendly and centralised manner, and will enable notifications and service by the DPMA.
