Ministry of Ecological Transition,
Biodiversity and International
Negotiations on Climate and Nature

Order concerning containers for oils falling within the extended producer responsibility scheme for mineral or synthetic, lubricating or industrial oils, and amending the specifications for the producer responsibility organisations within this scheme

NOR: TECP2526382A

Target audiences: *producers of containers for mineral or synthetic oils, lubricants or industrial oils; the approved producer responsibility organisation for the extended producer responsibility scheme for these oils; holders of used oil containers and those responsible for their management; and operators of treatment facilities.*

Purpose: *This Order amends the specifications for producer responsibility organisations in the extended producer responsibility sector applicable to mineral or synthetic, lubricating or industrial oils in order to lay down the provisions relating to the prevention and management of containers of waste oils pursuant to Article R543-3 of the Environmental Code, as resulting from Article 1 of Decree No 2025-1081 of 17 November 2025 on packaging and packaging waste and establishing the extended producer responsibility sector for packaging consumed or used by professionals.*

In addition, the order provides for a period of four months from the date of its publication for approved producer responsibility organisations in the extended producer responsibility sector for these oils to send the administrative authority additional information in order to meet the objectives and requirements of the product specifications as set out in this decree.

Entry into force: *this Order shall enter into force on the day following its publication, with the exception of Article 2 and points 1°, 2° and 3° of Article 3, which shall enter into force on 1 January 2027.*

References: *the Order is adopted pursuant to Article L. 541-10(II) of the Environment Code.*

**The Minister for Ecological Transition,
Biodiversity and International
Negotiations on Climate and Nature,**

Having regard to the Environment Code, in particular Articles L541-10, L 541-10-1 (17°), as well as Articles R543-3 to R543-14, as amended by Article 1 of Decree No 2025-1081 of 17 November 2025 on packaging and packaging waste and establishing the extended producer responsibility scheme for packaging consumed or used by businesses;

Having regard to the Order of 1 December 2020 laying down the list of chemical products referred to in Article L541-10-1(7°) of the Environment Code;

Having regard to the amended Order of 27 October 2021 laying down specifications for producer responsibility organisations in the extended producer responsibility sector for mineral or synthetic, lubricating or industrial oils;

Having regard to the Order of 7 December 2023, laying down specifications for producer responsibility organisations and individual systems in the extended producer responsibility sector for household packaging, printed paper and paper for graphic use;

Having regard to the Order of 5 September 2025 laying down the modulation arrangements applicable to the financial contributions paid by producers when they incorporate recycled plastics;

Having regard to the Order of 2 December 2025 setting out the specifications for producer responsibility producer responsibility organisations, individual compliance systems and coordinating bodies in the extended producer responsibility scheme for packaging used to place on the market products consumed or used by professionals

Having regard to the Order of 2 December 2025 concerning packaging for products used by households and/or businesses and falling within the scope of points 4 and 5 of Section III of Article R543-43 of the Environment Code;

Having regard to the opinion of the National Council for the Evaluation of Standards dated 04 June 2026;

Having regard to the opinion of the Inter-sectoral Committee on Extended Producer Responsibility of 11 June 2026;

Having regard to the observations made during the public consultation carried out between 06 May 2026 and 27 May 2026, pursuant to Article L123-19-1 of the Environmental Code;

Having regard to the notification to the European Commission dated [date], in accordance with Directive (EU) 2015/1535 of the European Parliament and of the Council of 9 September 2015 laying down a procedure for the provision of information in the field of technical regulations and of rules on Information Society services,

Hereby orders:

Article 1. – Producer responsibility organisations approved for the extended producer responsibility scheme for the products referred to in Article L541-10-1(17°) of the Environment Code shall remain approved until the expiry of their approval.

They have a period of four months from the date of publication of this Order to submit to the administrative authority the additional information required to meet the objectives and requirements of the specifications for producer responsibility organisations, as set out in Annex I to this Order. These additional elements include, in particular:

1. A status report on the management arrangements for waste oil containers and an estimate of the quantities of waste resulting from these products;
2. a projection of the financial contributions provided for in Article L541-10-2;
3. the evolution of the governance of the producer responsibility organisation as defined in point 5 of Article R541-86 and of its stakeholder committee as indicated in Article D541-90;
4. Changes to the resources – particularly financial and organisational – of the producer responsibility organisation by the end of its approval period;

5. The principles governing procurement procedures for the prevention and management of used oil containers pursuant to Article L541-10-6;
6. An update of the amount guaranteed by the financial mechanism referred to in Article L541-10-7 and of that of the related contract provided for in Article R541-124;
7. An update of the draft standard contracts provided for in Articles R541-102, R541-104,
8. Regulations R541-105 and R541-119, drawn up in consultation, where relevant, with representatives of local authorities or their associations responsible for the public waste management service, representatives of organisations involved in waste prevention, and representatives of waste management operators;
9. An overview of the tools, methods and measures envisaged for the training of staff responsible for collecting oil containers at household waste recycling centres;
10. A draft multiannual action plan and the associated budget for the implementation of the information and awareness-raising actions.

The standard contracts referred to in paragraph 7 of this Article shall enter into force on 1 January 2027.

Article 2. - The Order of 05 September 2025 is amended as follows:

1. In paragraph 3 of Article 2, after the words: ‘environment code,’ the following words are added: ‘as well as the oil containers referred to in Article R 543-3(I),’;
2. In the fourth subparagraph of Section I of Article 4, the second occurrence of the word: ‘article’ is replaced by the words: ‘this Article, as well as those relating to the oils referred to in paragraph I of Article R543-3,’;
3. In Article 6(I), after the words: ‘of the same article’ are inserted the words: ‘as well as those of the oils referred to in point I of Article R543-3,’.

Article 3. –

1. The specifications for producer responsibility organisations in the extended producer responsibility sector for mineral or synthetic, lubricating or industrial oils annexed to the abovementioned Order of 27 October 2021 is amended in accordance with Annex I to this Order;
2. The specifications for producer responsibility organisations and coordinating bodies within the extended producer responsibility scheme for packaging used to place on the market products consumed or used by professionals, annexed to the aforementioned Order of 2 December 2025, are amended in accordance with Annexes II and III to this Order;
3. The specifications for the producer responsibility organisations and coordinating bodies within the extended producer responsibility scheme for household packaging, printed paper and paper for graphic purposes, annexed to the aforementioned Order of 7 December 2023, are amended in accordance with Annexes IV and V to this Order.
4. The annex to the Order of 1 December 2020 is amended in accordance with Annex VI to this order.

Art. 4 - The Order of 02 December 2025 is amended as follows:

1. In the heading, the references ‘III (4) and (5)’ are replaced by the references ‘I (5) and (6)’;
2. Article 1 is amended as follows:
 - a) In the first paragraph, after the words ‘The packaging defined in’ the references ‘1° of’ are inserted and the references ‘4° and 5° of III’ are replaced by the references ‘5° and 6° of I’;
 - b) In Section I, the references ‘5° of III.’ are replaced by the references ‘6° of I.’;
 - c) In paragraph 2 of Section I, the words ‘as defined in paragraph 3 of Section II of Article R543-43 of this Code’ are replaced by the words ‘within the meaning of Regulation (EU) 2025/40 on packaging and packaging waste’;

- d) In 3° of I, the words ‘as defined in 2° of II of the same Article of this Code’ are replaced by the words ‘within the meaning of Regulation (EU) 2025/40 on packaging and packaging waste’;
- e) In point I(4), the words ‘as defined in point II(1) of Article R543-43 of this Code’ are replaced by the words ‘within the meaning of Regulation (EU) 2025/40 on packaging and packaging waste’;
- f) In point II, the references ‘4° of III.’ are replaced by the references ‘5° of I.’;
- g) In III, the references ‘4° or of 5° of III.’ are replaced by the references ‘5° or of 6 of I.’

Article 5. – Without prejudice to the provisions of Article 7 of Decree No 2025-1081 of 17 November 2025 on packaging and packaging waste and establishing the extended producer responsibility scheme for packaging consumed or used by businesses, this Order shall enter into force on the day following its publication, with the exception of Article 2, and points 1°, 2° and 3° of Article 3, which shall come into force on 1 January 2027.

Article 6. The Acting Director-General for Risk Prevention shall be responsible for the implementation of this Order, which shall be published in the *Official Journal* of the French Republic.

Drawn up on

The Minister for Ecological Transition, Biodiversity and International Negotiations on Climate and Nature,
For and on behalf of the Minister and by delegation,
The Acting Director-General for Risk Prevention,

Régine ENGSTRÖM

ANNEX I

The specifications for producer responsibility organisations set out in the annex to the Order of 27 October 2021 laying down the specifications for producer responsibility organisations in the extended producer responsibility scheme for mineral or synthetic oils, lubricants or industrial oils are amended in accordance with the provisions of this annex.

I. - Chapter 1, entitled 'General guidelines', is amended as follows:

1. After the first subparagraph, a subparagraph is inserted, worded as follows: 'These specifications also apply to the oil containers referred to in Article R543-3(I).' ;

2. In the second paragraph, after the words: 'regeneration and recycling' the following words are inserted: 'and other recovery operations' and after the words: 'waste oils' the following shall be inserted: 'and containers of waste oils under the conditions laid down in Article R543-8';

3. In the third paragraph, after the words: 'regeneration and recycling' the following words are inserted: 'and other recovery operations', after the words: 'waste oils' the following shall be inserted: 'and containers of waste oils under the conditions laid down in Article R543-8,' and the words: 'in Chapters 3 and 4' are replaced by the words: 'in Chapters 3, 4 and 9';

4. After the third sub-paragraph, a sub-paragraph is inserted as follows: 'It implements measures aimed at reducing the amount of waste generated by oil containers and promoting the reuse and recycling of these containers.' ;

5. In the first sentence of the fourth paragraph, after the words 'for all oils' are inserted the words: 'including their containers,' and the reference to 'II(1°) of Article R543-3' is replaced by the reference to '(I) of Article R543-3', and in the second sentence of the same paragraph, after the words: 'in proportion to the quantities of oils' the following words are inserted: 'including their containers,';

6. In the last subparagraph, after the words: 'a collection of waste oils' the following words are inserted: 'and containers of waste oils'.

II. – After the second paragraph of point 3.2 'Covering the costs of collection operations carried out by local authorities or associations thereof', the following paragraph is inserted:

'In accordance with the fourth paragraph of Article L541-10-2, the financial support fixed in the standard contract provided for in Article R541-104 shall be increased by applying to it a multiplication factor of 2.25 in the local authorities of the overseas territories referred to in that article. This weighting shall apply for as long as the collection performance (by weight) of used oil collected in those local authorities, expressed on a per capita basis, remains below the average collection performance for metropolitan France. '

— Point 3.6 'Operational technical committee for the management of waste oils' is amended as follows:

1. In the heading of point 3.6, after the words 'Operational Technical Committee for the Management of Waste Oils', the following words are inserted: 'and used oil containers',

2. In the first sentence of the first paragraph, the following words are inserted after the words 'management of waste oils': 'and used oil containers',

3. After the fourth paragraph, the following subparagraph is inserted: 'The producer responsibility organisation may also set up an operational technical committee dedicated to the management of used oil containers in accordance with the conditions and procedures set out above.' '

III. – Chapter 6 entitled ‘Information and awareness-raising’ is amended as follows:

1. At the end of the first paragraph, the following provisions shall be added:

‘It shall also carry out and support identical actions with regard to holders of containers of waste oils aimed at:

‘1° to provide information on the environmental impact of oil containers and on the rules governing the management of waste from these containers, including their hazardous nature,’

‘2° to promote bulk delivery of oils where technically possible.’ ’;

2. The last subparagraph is replaced by the following subparagraph:

‘To implement information and awareness-raising initiatives, the producer responsibility organisation submits a multiannual action plan and the associated budget.’ It shall submit to the Minister responsible for the environment a report on the projects funded and the amounts allocated at least every two years, and no later than three months before the expiry of its authorisation. ’

V. – Chapter 7, entitled ‘Study and Experimentation’, is amended as follows:

1. Point 7.1 ‘Collection of waste oils’ is amended as follows:

a) The heading of point 7.1 is amended by inserting the following words after the words ‘Collection of waste oils’:

b) ‘and waste oil containers’ ;

c) After paragraph 1, five paragraphs are added, which read as follows:

‘It shall also carry out a pilot scheme to assess the feasibility of collecting waste oils from households together with their containers from the following volunteer participants:’

‘1° Local authorities or associations thereof, in particular at household waste recycling centres; 2° Distributors.’

‘The producer responsibility organisation shall submit to the Minister responsible for the environment the results and any lessons to be learnt from this pilot scheme by 30 June 2027 at the latest.’ ’

2. Section 7.2, ‘Regeneration and recycling processes’, is amended as follows:

a) The heading of point 7.2 is replaced by a heading worded as follows: ‘ 7.2 Treatment processes for waste oils and waste oil containers’

b) The first subparagraph is replaced by the following one: ‘Under the conditions laid down in Article R 541-118, the producer responsibility organisation shall support research and development projects aimed at developing: ‘– techniques for the regeneration and recycling of waste oils, facilitating their incorporation into oils as referred to in Article R543-3(II)(1),

‘– systems for the reuse and reutilisation of containers, as well as recycling processes, in particular for plastic containers, including closed-loop systems. The producer responsibility organisation shall submit a progress report on the implementation of these projects to the Minister for the Environment by 30 June 2027 at the latest. ’;

The second paragraph is replaced by the following two paragraphs:

c) ‘By default, the producer responsibility organisation shall allocate at least 2 % of the total amount of the financial contributions it receives each year to public or private research and development projects.’

‘The producer responsibility organisation may allocate this amount until the end of its accreditation period.’ It shall then submit to the Minister responsible for the environment a multiannual work programme and the associated budget. It shall submit to the Minister responsible for the environment,

at least every two years and no later than three months before the expiry of its approval, a report setting out the results of those projects and the amounts allocated to them. ’

a) The last subparagraph is deleted.

VI. — After Chapter 8, entitled ‘Overseas territories’, the following Chapter 9 is added:

‘9. Special provisions for the management of waste oils containers

‘9.1. Prevention

‘In order to contribute to achieving the objectives of reducing by 15 % the quantities of household and similar waste and by 5 % the quantities of waste from economic activities provided for in I of Article L541-1, the producer responsibility organisation shall implement the necessary actions to reduce the quantities of waste from oil containers in 2030 compared with 2010, with a view to meeting these objectives.’

‘It shall propose to the Minister for the Environment, by 30 June 2027 at the latest, a multiannual reduction roadmap for the quantity of waste from oil containers, with a view to meeting the objective set out above.’

‘9.2. Provisions on the ecodesign of containers

‘9.2.1. Incorporation of recycled plastic materials

‘From 1 January 2027, the producer responsibility organisation shall grant a bonus for plastic containers incorporating recycled plastic under the conditions and in accordance with the arrangements laid down in the Order of 5 September 2025 laying down the modulation arrangements applicable to the financial contributions paid by producers when they incorporate recycled plastics.’

‘9.2.2. A study on certain environmental performance criteria’

‘The producer responsibility organisation shall carry out a study in conjunction with ADEME, which it shall submit to the Minister for the Environment by 30 June 2027 at the latest, with the aim, in particular, of:

1. Carrying out a review of existing systems for the reuse and reutilisation of containers, in particular large bulk containers and drums, as well as recycling processes – including closed-loop processes – for plastic and metal containers,

2° Identify the technical and economic barriers to the development of such reuse and reutilisation systems, as well as recycling processes, including closed-loop recycling, for those materials, the corresponding measures to address those barriers, and their respective development prospects.

‘Taking into account in particular the results of the work referred to in points 1 and 2, this study also defines modulation criteria, accompanied by a multiannual roadmap of objectives for the criteria studied, including for the closed-loop recycling of containers.’

‘ 9.3. Targets for the management of used oil containers’

‘9.3.1. Monitoring the quantities of used oil containers’

‘Pursuant to Article L541-10-13, the producer responsibility organisation carries out an annual monitoring of the quantities of used oil containers that are collected, reused, reutilised, recycled or recovered throughout the national territory, including the overseas territories.’ Each year, it sets out a summary of this monitoring in the annual report provided for in paragraph 1 of Article D541-93.

‘9.3.2. A study of the stock of used oil containers with a view to setting a multi-year roadmap of collection and recycling targets’

‘By 30 June 2027 at the latest, the producer responsibility organisation shall carry out a study assessing the quantity (by mass and number) of used oil containers to be collected on the national market, including those to be collected by local authorities or associations thereof as part of the public waste management service.’ This study distinguishes the situation of each of the overseas local authorities.

‘Taking into account, in particular, the results of the annual monitoring referred to in 9.3.1 and those of this study, and following consultation with its stakeholder committee, the producer responsibility organisation shall propose to the Ministry responsible for the environment, by 1 September 2027 at the latest, a multiannual roadmap for collection targets with a view to complying with the provisions of Article 49 of Regulation (EU) 2025/40 of the European Parliament and of the Council of 19 December 2024 on packaging and packaging waste, amending Regulation (EU) 2019/1020 and Directive (EU) 2019/904 and repealing Directive 94/62/EC.

‘The producer responsibility organisation shall also submit to the Ministry responsible for the environment, no later than 1 October 2027, following consultation with the stakeholder committee, an action plan aimed at achieving, by 31 December 2030 at the latest, the recycling targets set out in Article 52 of the aforementioned regulation for oil containers.’

‘9.4. Covering the costs of management operations for used oil containers with local and regional authorities or their groups responsible for the public waste management service’

‘The producer responsibility organisation shall contribute to covering the costs of the following operations to collect used oil containers with a view to their recovery, where those costs have been borne by local authorities or their groupings, in accordance with the arrangements specified in the standard contract drawn up pursuant to Article R541-104:’

- a) ‘The collection of used oil containers which is carried out in household waste recycling centres,
- b) ‘Where applicable, that which is carried out by mobile take-back points.’

‘The producer responsibility organisation shall take back from the local authorities or associations thereof, free of charge, containers of waste oils which they have collected separately, in order to process them in accordance with the procedures specified in the standard contract drawn up pursuant to Article R541-105.’

‘This standard contract also sets out the arrangements for the provision, free of charge, of suitable containers and personal protective equipment to staff at waste collection centres for local authorities or associations thereof that request them.’

‘The producer responsibility organisation may also contribute towards covering the costs of transport, re-use, recycling and other treatment operations for collected used oil containers, provided that these used oil containers undergo a recovery process.’ To this end, it shall propose to the regional and local authorities, or to their associations, that request it, a standard contract drawn up pursuant to Article R541-104, which defines the procedures for this contract.

‘In accordance with the fourth paragraph of Article L. 541-10-2, the financial support fixed in the standard contract provided for in Article R541-104 shall be increased by a factor of 2.25 for the local authorities of the overseas territories referred to in that article.’ This weighting is applied until it is demonstrated that the collection performance (in terms of mass) of used oil containers collected in these local authorities per capita is at least equal to the average performance for mainland France.

‘The producer responsibility organisation provides local authorities, or their associations, with tools, methods and initiatives designed to train their staff responsible for the separate collection of used oil containers at recycling centres.’

‘ 9.5. Covering the costs of managing used oil containers to those carrying out such operations, other than local authorities or associations thereof responsible for the public waste management service’

‘The producer responsibility organisation contributes towards the costs of transport, re-use, recycling and other waste treatment operations relating to used oil containers, provided that these used oil containers are subject to a recovery operation carried out by any person carrying out such operations who submits a request in accordance with the conditions set out in Article R543-11.

‘From 1 January 2030, the producer responsibility organisation may arrange for the free collection of used oil containers from any person who has carried out separate collection, or from re-use and recycling operators who so request, in accordance with the terms set out in the standard contract drawn up pursuant to Article R541-105.’ The producer responsibility organisation processes these containers free of charge.

‘The producer responsibility organisation may provide, free of charge, containers suitable for the collection of used oil containers to anyone who requests them.’ To this end, it shall propose to these persons a standard contract drawn up pursuant to Article R541-105.

‘9.6. Compensation of costs resulting from the management of waste oil containers collected with other packaging waste by local authorities or associations thereof

‘For the purposes of Article R543-14, the producer responsibility organisation shall enter into an agreement with any producer responsibility organisation approved for the products referred to in Article L541-10-1(1°) in order to compensate the latter for the costs it bears in collecting and treating the waste from the oil containers referred to in Article R543-3(I).’

‘That financial compensation shall be equal to the product of the quantity (by mass) of waste oil containers collected by local authorities under the extended producer responsibility scheme for household packaging and the flat-rate cost of collecting and treating those waste. The corresponding management costs borne by the approved producer responsibility organisations for the products referred to in point 1 of Article L541-10-1 may be added to this compensation.’

Each year, the producer responsibility organisation shall compensate the producer responsibility organisation(s) approved for household packaging referred to in Article L541-10-1(1°) for the costs they bear, by means of quarterly advance payments in year N and an annual balancing payment, made no later than 30 June of year N+1, in respect of waste collected in year N.

‘ 9.7. Compensation for the costs arising from the management of waste oil containers collected from packaging waste used to place on the market products consumed or used by professionals’

‘For the purposes of Article R543-14, the producer responsibility organisation shall enter into an agreement with any producer responsibility organisation approved for the products referred to in Article L541-10-1(2°) in order to compensate the latter for the costs it bears in collecting and treating the waste from the oil containers referred to in Article R543-3(I).’

‘This financial compensation shall be equal to the product of the quantity (by mass) of waste oil containers whose management has been supported by the producer responsibility organisations

approved for the products referred to in Article L541-10-1(2°), multiplied by the flat-rate cost of collecting and treating that waste.’ The corresponding management costs borne by these producer responsibility organisations may be added to this compensation.

‘Each year, the producer responsibility organisation shall compensate the producer responsibility organisation(s) approved for commercial packaging referred to in Article L541-10-1(2°) for the costs they bear, by means of quarterly advance payments in year N and an annual balancing payment, made no later than 30 June of year N+1, in respect of waste collected in year N.’

The specifications for producer responsibility organisations in the extended producer responsibility scheme for packaging used to place on the market products consumed or used by professionals set out in Annex I to the Order of 2 December 2025 laying down specifications for producer responsibility organisations, individual systems and coordinating bodies in the extended producer responsibility scheme for packaging used to place on the market products consumed or used by professionals shall be amended in accordance with the provisions of this Annex.

In Chapter 4, entitled ‘Provisions relating to the collection and management of commercial packaging waste and household packaging held by businesses’, a new section 4.1.9 is inserted after section 4.1.8, worded as follows:

‘4.1.9 Compensation for the costs arising from the management of waste oil containers collected from professional users.’

‘For the purposes of Article R543-14, the producer responsibility organisation shall enter into an agreement with any approved producer responsibility organisation responsible for the oil containers referred to in Article R543-3(I), in order to be reimbursed for the costs incurred by that organisation in collecting and treating waste from those oil containers.’

‘This financial compensation shall be equal to the product of the quantity (by mass) of waste oil containers whose management has been supported by the producer responsibility organisations approved for the products referred to in Article L541-10-1(2°), multiplied by the flat-rate cost of collecting and treating that waste.’ The corresponding management costs borne by these producer responsibility organisations may be added to this compensation.

‘The producer responsibility organisation shall define a method for determining the proportion of waste oil containers within the packaging waste collected from businesses, in conjunction with ADEME and in consultation with any producer responsibility organisation authorised to handle the oil containers referred to in Article R543-3(I).’ It shall submit this method to the Minister for the Environment for approval, together with a flat-rate cost for the collection and treatment of this waste. Where several producer responsibility organisations have been approved for the management of professional packaging waste, they shall formulate a joint proposal under the aegis of the coordinating body.

‘The producer responsibility organisation shall implement the necessary measures to ensure annual characterisation of the quantity of household packaging waste for which it covers the take-back costs.’ The financial compensation shall be paid each year by means of quarterly advance payments in year N and an annual balancing payment, made no later than 30 June of year N+1, in respect of waste collected in year N.

The specifications for producer responsibility organisations in the extended producer responsibility scheme for household packaging, printed paper and paper for graphic use set out in Annex I to the Order of 7 December 2023 laying down specifications for producer responsibility organisations and individual systems in the extended producer responsibility scheme for household packaging, printed paper and paper for graphic use are amended in accordance with the provisions of this Annex.

At the end of point 5.5. entitled ‘Compensation of costs resulting from the management of household and professional packaging’ of Chapter 5 entitled ‘5. Provisions on the management of waste from household packaging, printed paper and paper for graphic use’ is amended with the following point c):

‘(c) Compensation for the costs arising from the management of used oil containers collected by local authorities responsible for the public waste management service

‘For the purposes of Article R543-14, the producer responsibility organisation shall enter into an agreement with any approved producer responsibility organisation responsible for the oil containers referred to in paragraph I of Article R543-3, in order to be reimbursed for the costs incurred by that organisation in collecting and treating waste from those oil containers.’

‘This financial compensation shall be equal to the product of the quantity (by mass) of waste oil containers whose management has been supported by the producer responsibility organisations approved for the products referred to in Article L541-10-1(1°), multiplied by the flat-rate cost of collecting and treating that waste.’ The corresponding management costs borne by these producer responsibility organisations may be added to this compensation.

‘The producer responsibility organisation shall define a method for determining the proportion of waste oil containers within the packaging waste collected by local authorities responsible for public waste management services, in conjunction with ADEME and in consultation with any producer responsibility organisation authorised to deal with the oil containers referred to in Article R543-3(I).’ It shall submit this method to the Minister for the Environment for approval, together with a flat-rate cost for the collection and treatment of this waste. Where more than one producer responsibility organisation is approved to manage household packaging waste, printed paper and graphic paper waste, they shall submit a joint proposal under the coordination of the coordinating body.

‘The producer responsibility organisation shall implement the necessary measures to ensure annual characterisation of the quantity of household packaging waste for which it covers the take-back costs.’ The financial compensation shall be paid each year by means of quarterly advance payments in year N and an annual balancing payment, made no later than 30 June of year N+1, in respect of waste collected in year N.

ANNEX V

The specifications for producer responsibility organisations in the extended producer responsibility scheme for household packaging, printed paper and paper for graphic use set out in Annex III to the Order of 7 December 2023 laying down specifications for producer responsibility organisations and individual systems in the extended producer responsibility scheme for household packaging, printed paper and paper for graphic use are amended in accordance with the provisions of this Annex.

At the end of Chapter 2, entitled ‘Coordination of the work of producer responsibility organisations’, the following subparagraph is added:

‘ - The method for determining the proportion of waste oil containers within the packaging waste collected by local authorities within the framework of the extended producer responsibility scheme for household packaging provided for in point 5.5(b) of the specifications for producer responsibility organisations in the extended producer responsibility scheme for household packaging, printed paper and graphic paper together with the associated standard collection and treatment cost.

ANNEX VI

The Annex to the Order of 1 December 2020 establishing the list of chemical products referred to in Article L541-10-1(7°) of the Environmental Code shall be amended in accordance with the provisions of this Annex:

In the row ‘Mastics’ in Part 4 ‘Adhesion, sealing and repair products’, in the second column of the table, the number ‘0.3’ is replaced by the number ‘0.31’;
