5. Amendment by the Minister of Infrastructure to Regulation No. 12 of the Minister for the Environment of 10 May 2016 on "Requirements for biogas fermentation residues (digestate) generated from biodegradable waste"

6. Digestate produced from fermentation residue waste

7.

8. The following Regulation is to be amended:

Amendment to Regulation No. 12 of the Minister for the Environment of 10 May 2016 on “Requirements on digestate (fermentation residues) generated from biodegradable waste during production of biogas”

The regulation amends the requirements relating to the production of fermentation residues (sampling frequency for certification; conditions for checks carried out as part of annual monitoring; possibility of suspending certification; updating of lists of input materials, safety and quality indicators).

9. The aim is to reduce the administrative burden associated with the production of fermentation residues, in particular their certification as products, thereby increasing the recycling of biodegradable waste while continuing to ensure safety for the environment and human health.

10. References to related legislation: The provided texts of the Acts were forwarded as part of an earlier notification:
