5. Ministerial Decree amending the Ministerial Decree of 1 April 2021 laying down the drift-reducing agents

or measures

6. The Ministerial Decree determines the drift reduction agents or measures referred to in Article 9, 4° of the Royal Decree of 19 March 2013 to achieve the sustainable use of plant protection products and additives.

7.

8. This draft Ministerial Decree aims to further expand the list of recognised drift reduction agents or measures. Article 9, 4° of the Royal Decree of 19 March 2013 on achieving the sustainable use of plant protection products and adjuvants stipulates that drift reduction agents or measures may be used to reduce buffer zones and that the Minister may determine which ones are eligible for this purpose. The Ministerial Decree of 1 April 2021 lays down these agents and measures.

As new drift reduction agents and measures are constantly being developed, it is necessary to update this list on a regular basis. An update was also made last year. This draft Ministerial Decree again includes an update of the annex to the Ministerial Decree of 1 April 2021 laying down the drift-reducing agents or measures.

9. The envisaged Ministerial Decree includes the extension of drift reduction agents or measures recognised in Belgium as referred to in Article 9, 4° of the Royal Decree of 19 March 2013 to achieve the sustainable use of plant protection products and additives.

As new drift reduction agents and measures are constantly being developed, it is necessary to update this list on a regular basis. An update was also made last year. This draft Ministerial Decree again includes an update of the annex to the Ministerial Decree of 1 April 2021 laying down the drift-reducing agents or measures.
