5. Determination of the Director-General of the National Cybersecurity Agency referred to in Article 31(1) and (2) of Legislative Decree No 138 of 4 September 2024, adopted in accordance with the procedures referred to in Article 40(5)(l), which, pursuant to

6. Network and information system of essential and important subjects pursuant to Legislative Decree No

138/2024 (the NIS Directive) transposing Directive (EU) 2022/2555 (the NIS 2 Directive).

7.

8. This draft lays down basic methods and specifications for fulfilling the obligations set out in Articles 23, 24, 25, 29 and 32 of Legislative Decree No 138 of 4 September 2024 (the NIS Directive) transposing Directive (EU) 2022/2555 (the NIS 2 Directive).

Specifically, Article 1 contains the definitions, Article 2 introduces the technical annexes (basic security measures for important and essential subjects and basic significant incidents for important and essential subjects), Article 3 lays down the terms of adoption in line with the provisions of Article 42(1)(c) of the NIS Directive, Article 4 is dedicated to the obligations regarding the security, stability and resilience of domain name systems, specific to top-level domain name registry operators (TLDs) and domain name registration service providers (so-called registrars and their agents), Article 5 lays down the deadline for the start of the obligation to notify incidents for subjects included in the National Cybersecurity Perimeter, Articles 6 and 7 lay down the transitional regime towards the new NIS system respectively for operators of essential services, identified pursuant to Legislative Decree 65/2018, and for telecommunications operators, identified pursuant to the Decree of the Minister for Economic Development of 12 December 2018.

9. This draft is adopted pursuant to Article 42(1)(c) of Legislative Decree No 138 of 4 September 2024 (the so-called NIS Directive) transposing Directive (EU) 2022/2555 (the so-called NIS2 Directive) and lays down the basic methods and specifications for ensuring the security of network and information systems of NIS subjects, understood as the ability of network and information systems to withstand, with a certain level of reliability, events that could compromise the availability, authenticity, integrity or confidentiality of the data stored, transmitted or processed or the services offered by or accessible through these network and information systems.
