Regulation (EU) No 1169/2011 on the provision of food information to consumers: Articles 40, 43, 44 and 45
Notification under Regulation (EU) No 1169/2011 on the provision of food information to consumers:

8. The draft decree is a measure implementing Act No 110/1997 on foodstuffs and tobacco products and on amendments to certain related acts, as amended, and will amend the existing Decree No 397/2016 on the requirements for milk and milk products, ice creams, and edible fats and oils, as amended by Decree No 274/2019.

The draft Decree lays down the method of providing information on milk and milk products, ice creams, and edible fats and oils; it also sets out the types of these products, the quality requirements related to the name for each type, the permissible negative weight deviations for each type, and any applicable technological requirements. It also incorporates the requirements of Directive 2001/114/EC relating to certain partly or wholly dehydrated preserved milk for human consumption.

Keywords: milk and milk products, ice creams, edible fats and oils

References to previous notifications of the basic legislation: 2019/0314/CZ, 2025/0229/CZ

9. The main reason for submitting the draft is to align the existing Decree No 397/2016 with Directive (EU) 2024/1438 of the European Parliament and of the Council of 14 May 2024 amending Council Directives 2001/110/EC relating to honey, 2001/112/EC relating to fruit juices and certain similar products intended for human consumption, 2001/113/EC relating to fruit jams, jellies and marmalades and sweetened chestnut purée intended for human consumption, and 2001/114/EC relating to certain partly or wholly dehydrated preserved milk intended for human consumption. Further adaptations are proposed based on technological developments in the food industry and the application of directly applicable European Union legislation. For example, the Decree lacks definitions of milk products for which it lays down quality requirements; it clarifies the requirements for indicating quality parameters to consumers, and adds definitions and labelling requirements for frying oil/fat and virgin oil. The aim of these amendments is to improve consumer information.
