5. Ordinance on support for measures to reduce emissions of nitrogen compounds in agriculture

6. Nitrogen sensors, among others.

7.

8. According to the proposal for an ordinance on support for measures to reduce emissions of nitrogen compounds in agriculture, support may be granted for investments in measures or equipment that reduce ammonia emissions, such as the purchase of machinery or other equipment that reduces ammonia

emissions during the storage and spreading of manure. Support may also be granted for measures or equipment that contribute to more efficient use of nitrogen, e.g. investments in what is known as nitrogen sensors that enable fertilisers to be spread more efficiently.

Requirements notified
Proposal for an ordinance on support for measures to reduce emissions of nitrogen compounds in agriculture, which provides an opportunity to receive support for e.g. the purchase of machinery or other equipment that reduces ammonia emissions and makes more
efficient use of nitrogen, such as nitrogen sensors. Support may be granted for measures that contribute to reducing ammonia emissions from agriculture or that contribute to more efficient use of nitrogen. Support may be granted to
1. agricultural enterprises, for investments in technical solutions or equipment and
2. service supply agencies, for investments in equipment.

9. The purpose of the Ordinance is to provide state aid to agricultural enterprises and service supply agencies in order to enable them to invest in measures or equipment that contribute to a lasting reduction of ammonia emissions from agriculture and measures that contribute to a more efficient use of nitrogen.
