8. The draft Decree amending Decree No 152/2009 of the Ministry of Agriculture and Rural Development of 12 November 2009 on the mandatory requirements of the Codex Alimentarius Hungaricus updates regulation 1-3/19-1 of the Hungarian Food Code on dairy products.

The amendment concerns the designation of post heat-treated sour cream and contains amendments concerning food additives.

9. According to the draft, sour cream contains live culture with a sufficient number of lactic acid bacteria, therefore sour cream that has undergone post-heat treatment cannot be called 'sour cream'. The legal designation of these products is now: 'post heat-treated fermented cream product'.

The classification according to food categories under Regulation (EC) No 1333/2008 of the European Parliament and of the Council of 16 December 2008 on food additives was not exhaustive in some product categories, which is now completed by the draft Decree.
