4. 2025/0287/SE - S70E - Hazardous substances and preparations

5. Ordinance prohibiting certain products that are harmful to health

6. Difludiazepam (Ro 07-4065), 3-methyl-alpha-PHP (3'-Me-alpha-PHP), 10-hydroxyhexahydrocannabinol (10-OH-HHC), 10-hydroxyhexahydrocannabiforol (10-OH-HHCP), hexahydrocannabinol-C8 (HHC-C8) and hexahydrocannabinol-C9 (HHC-C9).

7.

8. On the basis of the attached classification documents, the Swedish Public Health Agency proposes that difludiazepam (Ro 07-4065), 3-methyl-alpha-PHP (3'-Me-alpha-PHP), 10-hydroxyhexahydrocannabinol (10-OH-HHC), 10-hydroxyhexahydrocannabifol (10-OH-HHCP), hexahydrocannabinol-C8 (HHC-C8) and hexahydrocannabinol-C9 (HHC-C9) be regulated as products that are harmful to health in accordance with the Act (1999:42) on the banning of certain products that are harmful to health, and thus be included in the Ordinance on the banning of certain products that are harmful to health.

For all substances, there is evidence to support the legal requirements for products that are harmful to health. The majority of the substances have been seized and identified in Sweden. All the substances are being sold or have been sold through online outlets and have been discussed on drug forums on the internet. 10-OH-HHCP, HHC-C8 and HHC-C9 have been reported to cause intoxications including prolonged lowering of consciousness.

Classification will mean, inter alia, that the substance may not be imported or held in possession without special permission from the Swedish Medical Products Agency or the Swedish Public Health Agency.

Please note that only the substances listed next to a vertical line in the left margin of the draft Ordinance are additions to the attached ordinances. Other substances are already listed therein.

9. Given the danger posed to human health, the aim of the classification is to restrict the use of the substances listed in the Ordinances.

10. Reference(s) to basic text(s): No basic texts available

11. Yes

12. Risks to human life and health, and to public safety, mean that the regulatory amendments regarding the substance to be classified as a narcotic drug should be drawn up within a very short time frame.

13. No

14. No

15. No
