

Message 001

Communication from the Commission - TRIS/(2025) 1762

Directive (EU) 2015/1535

Notification: 2025/0354/DE

Notification of a draft text from a Member State

Notification – Notification – Notifizierung – Нотификация – Oznámení – Notifikation – Γνωστοποίηση – Notificación – Teavitamine – Ilmoitus – Obavijest – Bejelentés – Notifica – Pranešimas – Paziņojums – Notifika – Kennisgeving – Zawiadomienie – Notificação – Notificare – Oznámenie – Obvestilo – Anmälan – Fógra a thabhairt

Does not open the delays - N'ouvre pas de délai - Kein Fristbeginn - Не се предвижда период на прекъсване - Nezahtuje prodlení - Fristerne indledes ikke - Καμμία έναρξη προθεσμίας - No abre el plazo - Viivituste perioodi ei avata - Määräaika ei ala tästä - Ne otvara razdoblje kašnjenja - Nem nyitja meg a késésekét - Non fa decorrere la mora - Atidējimai nepradedami - Atlikšanas laikposms nesākas - Ma jiftaħ il-perijodi ta' dewmien - Geen termijnbegin - Nie otwiera opóźnień - Não inicia o prazo - Nu deschide perioadele de stagnare - Nezačína oneskorenia - Ne uvaja zamud - Inleder ingen frist - Ní osclaíonn sé na moilleanna

4. 2025/0354/DE - B00 - CONSTRUCTION

5. BAW [Federal Institute for Hydraulic Engineering] Code of Practice - Construction and refurbishment of large-scale marine water structures (MBM), 2025 edition

6. The BAW-MBM was revised on the basis of current knowledge and practical experience gained in the construction of structures in marine and estuarine areas.

7.

8. The provisions of the BAW-MBM supplement the provisions of the ZTV-W LB 215 and the ZTV-W LB 219

in areas under the influence of seawater in coastal areas as well as estuaries of exposure classes XS2, XS3 and XF4. The BAW-MBM describes tailored provisions for specific cases and construction areas as well as additional preventive measures, such as the selection of special construction methods and building materials.

9. In order not to overload the ZTV-W LB 215 and ZTV-W LB 219 with specific provisions for marine structures, these provisions were bundled together in the new BAW-MBM. This way, the higher level of detail desired can be better taken into account in the differentiation of the design cases (taking into account the nature and intensity of the water impact or the chloride effect).
