5. Draft Decree amending Government Decree No 508/2017 of 29 December 2017 laying down rules on the making and decoration of precious metal articles

6. precious metal articles

7.

8. In the case of articles made of precious metals, the introduction of a new series of hallmarks marked with the letter 'D' provides an opportunity to make precious metal articles safer and more difficult to falsify.

9. The letter marking on Hungarian hallmarks was introduced in 1999. This letter marking is intended to indicate the time of manufacture and the placing on the market of the precious metal article, and it is advisable to change it every ten years. Determining the period in which a particular precious metal article was made is important especially when considering longer periods of time. The time interval for the first letter series was shorter, ending on 31 December 2005, and was followed by a transition to the ten-year time interval taking place on 1 January 2016. Since 2016, the national hallmark series with the letter 'C' has been in force for precious metal articles.
