

SECRETARIAT-GENERAL FOR INFRASTRUCTURE
REGULATION

Amendment of Regulation No ... of the Minister for Infrastructure of ... “Requirements and procedure for the construction of drilled wells, boreholes and dug wells”

This Regulation is enacted on the basis of Sections 35(6), 43(5), 47(7) and 126(6) of the Building Code.

§ 1. Amendment of Regulation No ... of the Minister for Infrastructure of ... “Requirements and procedure for the construction of drilled wells, boreholes and dug wells”

Section 10(7) of Regulation No. ... of the Minister of Infrastructure ... "Requirements and procedures for the construction of boreholes, wells and dug wells" is amended and worded as follows:

“(7) The following conditions must be complied with when constructing a drilled well:

- 1) the final jacketed pipe of the drilled well shall be installed only after the borehole has been fully drilled;
- 2) if a temporary guide tube has been used during drilling, it must be removed no later than during the installation and cementing of the final jacketed pipe;
- 3) The diameter of the borehole must be at least 50 mm larger than the outer diameter of the jacketed pipe along its entire length in order to ensure a continuous watertight layer of cementitious insulation between the jacketed pipe and the borehole wall.

Section 2. Entry into force of the Regulation

The Regulation shall enter into force on 1 January 2028.

Kuldar Leis
