4. 2025/0764/BE - N20E - Electricity

5. Draft Royal Decree amending parts of chapter 7.1 of book 3, introduced by the royal decree of 8 September 2019 establishing Books 1, 2 and 3 of the General Regulations on equipment

6. Minimum safety measures for equipment in Belgium in accordance with the General Regulations on equipment (RGIE) introduced by the Royal Decree of 8 September 2019 establishing Books 1, 2 and 3

7.

8. The amendments to the draft Royal Decree concern Book 3 of the RGIE dealing with distribution and transmission of electrical energy. These refer to Chapter 7.1. on trolley wires, i.e. in particular:

- amendments to subsection 7.1.6.3 on the mechanical strength of supports by reference to the current implementing standards;
- amendments to subsection 7.1.6.4. relating to insulating arm brackets and safety devices for use on insulators and insulator strings;
- addition of temporary high-voltage trolley wires (subsections 7.1.3.4. - inaccessibility and climbing of supports - and 7.1.6.3. - trolley wire foundations);
- terminology modifications.

9. On 1 June 2020, a new, restructured RGIE entered into force for equipment implemented in Belgium, replacing the former RGIE in force in Belgium since 1981. The draft Royal Decree is part of the ongoing restructuring of the RGIE and its contents to maintain a satisfactory level of safety of equipment. This plan takes into account technological and normative developments for trolley wires for distributing and transmitting electrical energy.
