5. Proposal for a Decree of the Ministry of the Environment amending the Decree of the Ministry of the Environment on the energy performance certificates of buildings

6. Does not directly relate to any product or service.

7.

8. The proposal proposes to amend the current Decree of the Ministry of the Environment on the energy performance certificates of buildings (1048/2017). It is proposed that the Regulation be amended to bring it into line with the requirements of the recast Directive (EU) 2024/1275 on the Energy Performance of Buildings. Changes are proposed, among other things, to the terminology used in energy performance certificates, the calculation rules, the grouping of buildings for energy classification purposes, the format of the energy performance certificate, and the information to be included in the certificate. In addition, more detailed provisions would be laid down on the information to be presented in the renovation passport and the model of the renovation passport.

9. This amendment to the Regulation follows the recast of Directive (EU) 2024/1275 of the European Parliament and of the Council on the energy performance of buildings. The Directive on the Energy Performance of Buildings entered into force on 28 May 2024, and it must be implemented in the Member States by 28 May 2026.
