4. 2025/0396/DE - S90E - Greenhouse gases or gases that deplete the ozone layer

5. Draft of a fifth law amending the Chemicals Act

6. Fluorinated greenhouse gases and ozone-depleting substances, as well as products and equipment containing, or whose functioning relies upon, either fluorinated greenhouse gases or ozone-depleting substances

7.

8. The regulation abolishes national provisions now contained in the F-gas Regulation (EU) 2024/573 (§ 12i

and § 12l). In addition, it is clarified when the transfer of hydrofluorocarbons is to be accompanied by a declaration (§ 12j). The ban on the placing on the market of pre-filled equipment in the F-gas Regulation (EU) 2024/573 is specified in order to prevent circumvention of the regulations (§ 12j). Injunction powers have been created to provisionally prohibit the use, manufacture, import, export and placing on the market of fluorinated greenhouse gases and ozone-depleting substances, as well as products and equipment containing them or whose functioning relies upon them (§ 23a). In addition, the power to issue statutory instruments for prohibitions and restrictions has been adapted in order to create a sufficiently concrete legal basis for the requirements for expertise (§ 17).

9. Adaptation of national law to the F-gas Regulation (EU) 2024/573 by abolishing national arrangements that are now in EU law and updating existing references to the previous F-gas Regulation (EU) No 517/2014. Implementation of the mandates of the F-gas Regulation (EU) 2024/573 and Regulation (EU) 2024/590 to provide for provisional prohibitions as a sanction for breaches.
