

SOTSIAALMINISTEERIUM

DRAFT

15.06.2026

## REGULATION OF THE MINISTER

Item

Minister of Social Affairs 18 May 2005 Regulation No. 73  
Amendment of "Schedules of Narcotic Drugs and Psychotropic Substances and Handling of Such Substances for Medical and Scientific Purposes".

The Regulation is established on the basis of § 3<sup>1</sup>(1) of the Act on Narcotic Drugs and Psychotropic Substances and Precursors thereof.

Annex 1 to Regulation No. 73 of the Ministry of Social Affairs of 18 May 2005 on "Schedules of Narcotic Drugs and Psychotropic Substances and Handling of Such Substances for Medical and Scientific Purposes" is replaced by Annex 1 to this Regulation.

(digitally signed)  
Karmen Joller  
The Minister of Social Affairs

(digitally signed)  
Maarja Mändmaa  
Secretary General

Regulation No 73 of the Minister for Social Affairs of 18 May 2005 entitled 'Schedules of narcotic drugs and psychotropic substances and the handling of such substances for medical and scientific purposes'

Annex 1  
(as amended)

## SCHEDULES I–VI OF NARCOTIC DRUGS AND PSYCHOTROPIC SUBSTANCES AND SUBSTANCE GROUPS

### SCHEDULE I

| Name of substances in Estonian                                                                                                                                                                                                                    | Name of substances in English                                                                                                                                                                                                           |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1-(1-bensofuraan-5-üül)-N-etüülpropaan-2-amiin (5-EAPB)                                                                                                                                                                                           | 1-(1-benzofuran-5-yl)-N-ethylpropan-2-amine (5-EAPB)                                                                                                                                                                                    |

| 4-fluorometamfetamiin (4-FMA); (RS)-1-(4-fluorofenüül)-N-metüülpropan-2-amiin                                                                                                                                    | 4-fluoromethamphetamine (4-FMA); (RS)-1-(4-fluorophenyl)-N-methylpropan-2-amine                                                                                                                              |
| 4-fluorometüülfenidaat (4F-MPH); metüül-2-(4-fluorofenüül)-2-(2-piperidüül)atsetaat                                                                                                                              | 4-fluoromethylphenidate (4F-MPH); methyl-2-(4-fluorophenyl)-2-(2-piperidyl)acetate                                                                                                                           |
| 4F-MDMB-BICA(4-fluoro-MDMB-BICA,4-fluoroMDMB-BUTICA); metüül-2-([1-(4-fluorobutüül)-1H-indool-3-üül]karbonüül)amino)-3,3-dimetüülbutanoaat; metüül-N-[1-(4-fluorobutüül)-1H-indool-3-karbonüül]-3-metüülvalinaat | 4F-MDMB-BICA,(4-fluoro-MDMB-BICA;4-fluoro-MDMB-BUTICA); methyl 2-([1-(4-fluorobutyl)-1H-indol-3-yl]carbonyl)amino)-3,3-dimethylbutanoate; methyl N-[1-(4-fluorobutyl)-1H-indole-3-carbonyl]-3-methylvalinate |
| 4F-MDMB-BINACA (4F-MDMB-BUTINACA); metüül-2-(1-(4-fluorobutüül)-1H-indasool-3-karboksamido)-3,3-dimetüülbutanoaat                                                                                                | 4F-MDMB-BINACA (4F-MDMB-BUTINACA); methyl 2-(1-(4-fluorobutyl)-1H-indazole-3-carboxamido)-3,3-dimethylbutanoate                                                                                              |
| 4-metamfetamiin (4-metüülamfetamiin; 4-MA)                                                                                                                                                                       | 4-methylamphetamine (4-MA)                                                                                                                                                                                   |
| 4-metoksümetkatinoon (metedroon, bk-PMMA, PMMC);                                                                                                                                                                 | 4-methoxymethcathinone (methedrone, bk-PMMA, PMMC)                                                                                                                                                           |
| 4-metüülaminoreks                                                                                                                                                                                                | 4-methylaminorex; (+-)-cis-2-amino-4-methyl-5-phenyl-2-oxazoline                                                                                                                                             |
| 4-metüületkatinoon (4-MEC)                                                                                                                                                                                       | 4-Methylethcathinone (4-MEC)                                                                                                                                                                                 |
| 4-metüülmetkatinoon (mefedroon, 4-MMC)                                                                                                                                                                           | 4-methylmethcathinone (mephedrone, 4-MMC)                                                                                                                                                                    |
| 4-metüültioamfetamiin (4-MTA)                                                                                                                                                                                    | 4-methylthioamphetamine (4-MTA)                                                                                                                                                                              |
| 5-(2-aminopropüül)indool (5-API, 5-IT)                                                                                                                                                                           | 5-(2-aminopropyl)indole (5-API, 5-IT)                                                                                                                                                                        |
| 5,6-metüleenedioksi-2-aminoindaan (MDAI); 6,7-dihüdro-5H-tsüklopenta[f][1,3]bensodioksool-6-amiin                                                                                                                | 5,6-methylenedioxy-2-aminoindane (MDAI); 6,7-dihydro-5H-cyclopenta[f][1,3]benzodioxol-6-amine                                                                                                                |
| 5F-AKB48 (AKB-48F; 5-fluoro-AKB-48); N-(1-adamantüül)-1-(5-fluoropentüül)-1H-indasool-3-karboksamiid                                                                                                             | 5F-AKB48 (AKB-48F; 5-Fluoro-AKB-48); N-(1-adamantyl)-1-(5-fluoropentyl)-1H-indazole-3-carboxamide                                                                                                            |
| 5F-AMB; 5F-AMB-PINACA; metüül-2-([1-(5-fluoropentüül)-1H-indasool-3-üül]karbonüül)amino)-3-metüülbutanoaat                                                                                                       | 5F-AMB; 5F-AMB-PINACA; methyl 2-([1-(5-fluoropentyl)-1H-indazol-3-yl]carbonyl)amino)-3-methylbutanoate                                                                                                       |
| 5F-MDMB-PICA(5F-MDMB-2201,5-fluoroMDMB-PICA); metüül-2-[1-(5-fluoropentüül)indool-3-karbonüül]amino)-3,3-dimetüülbutanoaat; metüül-N-([1-(5-fluoropentüül)-1H-indool-3-üül]karbonüül)-3-metüülvalinaat           | 5F-MDMB-PICA(5F-MDMB-2201,5-fluoroMDMB-PICA); methyl 2-[1-(5-fluoropentyl)indole-3-carbonyl]amino)-3,3-dimethyl-butanoate; methyl N-([1-(5-fluoropentyl)-1H-indol-3-yl]carbonyl)-3-methylvalinate            |
| 5F-MDMB-PINACA (5F-metüül-AMB, 5-fluoro-MAMB; 5-fluoro ADB); metüül-[2-(1-(5-fluoropentüül)-1H-indasool-3-karboksamido)-3,3-dimetüülbutanoaat]                                                                   | 5F-MDMB-PINACA (5F-methyl-AMB, 5-fluoro-MAMB; 5-fluoro ADB); methyl-[2-(1-(5-fluoropentyl)-1H-indazole-3-carboxamido)-3,3-dimethylbutanoate]                                                                 |
| 5F-PB-22; 1-(5-fluoropentüül)-1H-indool-3-karboksüülhappe 8-kinolinüülester                                                                                                                                      | 5F-PB-22; 1-(5-fluoropentyl)-1H-indole-3-carboxylic acid 8-quinolinyl ester                                                                                                                                  |
| 5F-UR-144 (XLR-11); (1-(5-fluoropentüül)-1H-indool-3-üül)(2,2,3,3-tetrametüültsüklopropüül)metanoon                                                                                                              | 5F-UR-144 (XLR-11); (1-(5-fluoropentyl)-1H-indol-3-yl)(2,2,3,3-tetramethylcyclopropyl)methanone                                                                                                              |
| 5-metoksü-2-aminoindaan (MEAI; 5-MeO-AI); 2,3-dihüdro-5-metoksü-1H-indeen-2-amiin                                                                                                                                | 5-methoxy-2-aminoindane (MEAI; 5-MeO-AI); 2,3-dihydro-5-methoxy-1H-inden-2-amine                                                                                                                             |
| 5-metoksü-N,N-dimetüültrüptamiin (5-MeO-DMT); 2-(5-metoksü-1H-indool-3-üül)-N,N-dimetüületaaniamiin                                                                                                              | 5-methoxy-N,N-dimethyltryptamine (5-MeO-DMT); 2-(5-methoxy-1H-indol-3-yl)-N,N-dimethylethanamine                                                                                                             |
| 6-(2-aminopropüül)bensofuraan (6-APB)                                                                                                                                                                            | 6-(2-aminopropyl)benzofuran (6-APB)                                                                                                                                                                          |

|--------------------------------------|----------------------------------|
| 1,4-butaandiool (1,4-BD)             | 1,4-butanediol (1,4-BD)          |
| Gammabütürolaktoon (GBL)             | Gamma-butyrolactone (GBL)        |
| Dilämmastikoksiid (N <sub>2</sub> O) | Nitrous oxide (N <sub>2</sub> O) |

#### SCHEDULE VI

| Name of substance groups in Estonian                      | Name of substance groups in English                  |
|-----------------------------------------------------------|------------------------------------------------------|
| Adamantoüülindoolid                                       | Adamantoylindoles                                    |
| Bensoüülindoolid                                          | Benzoylindoles                                       |
| Fenetüülamiinid                                           | Phenethylamines                                      |
| Fentanüülid*                                              | Fentanyl derivatives*                                |
| Fenüülatsetüülindoolid                                    | Phenylacetylindoles                                  |
| Indasoolkarboksamiidid                                    | Indazolecarboxamides                                 |
| Indoolkarboksamiidid                                      | Indolecarboxamides                                   |
| Katinoonid                                                | Cathinones                                           |
| Naftoüülindoolid                                          | Naphthoylindoles                                     |
| Naftoüülpürroolid                                         | Naphthoylpyrroles                                    |
| Naftüülmetüleenindeenid                                   | Naphthylmethyleneindenes                             |
| Naftüülmetüülindoolid                                     | Naphthylmethylinindoles                              |
| Nitaseenid                                                | Nitazenes                                            |
| Poolsünteesilised kannabinoidid (kannabinooli derivaadid) | Semi-synthetic cannabinoids (cannabinol derivatives) |
| Trüptamiinid                                              | Tryptamines                                          |
| Tsükloheksüülfenoolid                                     | Cyclohexylphenols                                    |
| Tsüklopropüülkarbonüülindoolid                            | Cyclopropylcarbonylindoles                           |

\* v.a II nimekirja ainena ravimi koostises

\* excl. medicinal product in Schedule II
