5. Granting hospital pharmacies the right to import medicinal products and active substances for the manufacture of medicinal products

6. Medicinal products and active substances for the manufacture of medicinal products

7.

8. The amendment to the Medicinal Products Act grants hospital pharmacies the right to import medicinal products and active substances for the manufacture of medicinal products to supply the hospital of which it is a structural unit.

9. The purpose of the draft is to make the possibilities of hospital pharmacies to improve the availability of medicinal products more flexible, and thereby improve the flexibility of planning of expenditure on medicinal products. As a result of the adoption of the draft, competition between wholesalers of medicinal products may increase. In this context, the prices of medicinal products for hospitals may decrease, and medicinal products may become more flexibly and readily available.
