6. pressure equipment, fuel consuming appliances, lifting installations

7.

Directive 2006/123/EC on services in the internal market

Other

Authorised legal persons and natural persons certified by ISCIR as well as natural and legal persons authorised in equivalent fields of activity by the competent authorities of a Member State of the European Union or a State signatory to the Agreement on the European Economic Area shall be registered in the ISCIR Register of authorised legal persons.

Regulation of activities carried out at hydrogen refuelling stations and compressed natural gas (CNG) refuelling stations for vehicles;

The measure is proportionate to the objective pursued.

8. This technical prescription sets out the conditions for the authorisation of legal persons and the methodology for the attestation of natural persons to carry out activities in the field of ISCIR.

Legal entities authorised and natural persons certified by ISCIR, as well as natural and legal persons authorised in equivalent fields of activity by the competent authorities of a Member State of the European Union or a signatory state to the Agreement on the European Economic Area, shall be entered in the ISCIR Register of authorised legal entities

9. The current prescription does not contain all types of installations/equipment and does not regulate all activities carried out to them, resulting in the following:

- the inability to grant authorisation to legal entities to carry out activities at compressed natural gas (CNG) facilities for vehicles and at hydrogen refuelling stations, which also means that the operation of these types of facilities cannot be authorised;
- the impossibility of authorising legal persons for the activity of filling transportable pressure vessels;
- the impossibility of authorising legal persons for the activity of technical verification in use to estimate the remaining lifespan.
