5. Decision of the Flemish Government adopting the regulation governing the movement of port vehicles in the port of Ostend

6. Port vehicles in the Ostend port area

7.

8. This decision establishes a regulatory framework enabling port vehicles to be deployed within the Ostend port area in accordance with technical requirements specifically tailored to the unique characteristics of these vehicles, whilst ensuring road safety and the integrity of the roads and infrastructure within the port area.

9. In accordance with Article 14bis of the Decree of 2 March 1999 on the policy and management of seaports, the Flemish Government, on the recommendation of the Ostend Port Authority, shall adopt a regulation governing the movement of port vehicles within the port area. This regulation may derogate from the provisions of the Royal Decree of 15 March 1968 laying down general regulations on the technical requirements to be met by motor vehicles, their trailers, their components and their safety equipment, and from the provisions of the Royal Decree of 1 December 1975 laying down general regulations on road traffic policing and the use of public roads. This draft decree implements this provision in respect of port vehicles operating within the Ostend port area.
