

### **Import of dead Seabass and Seabream for retail use from Türkiye**

Following successful negotiations with the Republic of Türkiye, the Canadian Food Inspection Agency (CFIA) has finalized a new zoosanitary export certificate:

- Zoosanitary Certificate for the export of cultured dead European Seabass (*Dicentrarchus labrax*) and Gilthead Seabream (*Sparus aurata*) for food service and retail use from Türkiye to Canada

This new zoosanitary export certificate is implemented immediately.

The [Automated Import Reference System \(AIRS\)](#) has been updated with the import requirements and documentation instructions.

As set out in the *Safe Food for Canadians Regulations*, importers of the above-mentioned commodities will need to hold a Safe Food for Canadians licence to import and are responsible for meeting all applicable Canadian requirements
